

# We Want You: How College Admissions Reads Your Application

Your SAT & GPA are not the ONLY things that matter!!!!

■ Letter of Rec ■ SAT/ACT ■ GPA ■ Class Schedule ■ Extra-curricular ■ Essay

Most colleges read your application holistically, meaning they are reading/reviewing EVERYTHING you send to them.

Letters of Recommendation provide Admissions Counselors insight into who you are from different perspectives

Be sure to ask teachers who can highlight your strengths

Similar to Letters of Recommendation, the College Essay provides insight into who you are outside of the academic realm.

This is your chance to let the Counselors know more about you!

Don't stress over what classes you're taking vs what classes every other applicant is taking!

Counselors are looking at you in the context of YOUR school, and what classes YOUR school provides.

Don't fret about getting a B in a class – this shows the admissions counselor that you were challenged!
